**STUDENT**  
PULSE Task Number  
**A**  
**301**

**Description of the task:**

Sort out the following items that can be seen in the picture from the sets (square, triangle and circle).

Observe the colour of the smallest fields in the items.

Sort the items into groups in which the smallest fields are of the same colour!

How many groups did you get? \_\_\_\_\_

Find out another sort order. Show it to your classmates. Did they find out the rule of your sort order?  
Draw 2 elements from each group.

**Solution(s) of the task:**

**Remarks / Self-evaluation:**
