Description of the task:

Exercises with double set of squares:

1. First, using two complete sets ($2 \times 24 = 48$ basic elements) construct a large square shape with total side connection in a 7×7 arrangement with a hole in the middle, putting down the elements randomly.
2. Rearrange it to a shape with total size connections of the same size.
3. Rearrange it to a shape with total size connections of the same colour.
4. Rearrange it to a shape with total size connections of the same colour and size.
5. If you find it difficult to solve the previous task, proceed with a closed square shape in a 6×8 arrangement and the same rule.

Solution(s) of the task:
